HOW TO SPOT A RED TEACHER

Fight brainwashing in the classroom...

COMMUNIST TEACHERS have infiltrated our schools. You may find some in your school, trying to indoctrinate you with communist ideas. You can recognise them when they sneer at our White race and nation and everything that has made Britain great. Don't let them get away with it. Be proud to be British and fight back against communist brainwashing. Communist teachers use many tricks to bend your mind. Here are some of them, and the way to answer back:-

'SOCIAL STUDIES'

If you get lessons in 'social studies' or 'social science', you are probably being fed on a diet of Marxism. 'Sociology' teaches that poverty, ignorance and crime are only society's fault, never the individual's. It claims, for example, that those who riot and mug in our inner cities do so because they are without work, 'disadvantaged' and victims of 'institutionalised racism'.

Tell your red teacher that many people were unemployed and poor in Britain during the Great Slump of the 1930s but they didn't burn down cities, attack policemen or mug old ladies.

THE 'RACIAL EQUALITY' LIE

Communist teachers will tell you that all races are 'equal', and that if they do not score equally in achievement it is because of 'environmental' differences and 'deprivation'.

Tell your red teacher that tests in the United States have established that Blacks and Whites from exactly the same social and economic backgrounds score vastly differently in academic results. The same tests show that American Indians, who are poorer and more deprived than Blacks, score higher than Blacks in schools and colleges. It is not a question of 'inferior' or 'superior' but only of nature fitting Blacks, Whites and others with different attributes. The best way to enable Blacks to capitalise on their natural attributes is to resettle them in wholly black societies in their ancestral homelands.

MULTI-RACIALIST PROPAGANDA

Communists want to wreck Britain. That is why they promote multi-racialism. They will tell you that Britain has always had immigrants and that the British people are already a 'mixture' of different races.

Tell your red teacher that this is untrue and that the Saxons, Celts, Danes, Normans, etc., who formed the British people were all groups of the same race — the white Northern European — and differed to begin with only in language. Blacks and Asians belong to entirely different races.
